Pressure Gauges

PRESSURE GAUGES

Differential Pressure Gauges

With the assistance of our advanced technology and experienced workforce, we manufacture and export differential pressure gauges that have gained wide appreciation in the international market. Fabricated using supreme quality material our high on durability gauges are ideal for gaseous media and corrosive environment. These pressure gauges are available in dial size of 100mm and 150mm. Our entire range is consistent in performance and accurate in construction.

Our range finds wide application in:

- * Accuracy: $\pm 1.6\%$ of full seals
- * Dial Size: 100mm & 150mm
- * Case & Bezel (IP-65): SS 304 Snap Action Bayonet type
- * HP / LP Chamber: SS304/SS316
- * Movement: SS304 Pressure Element: SS 316L Single diaphragm
- * Dial Pointer: Aluminum white painted with 270 degree black scale marking Al. / Brass, Micro Zero Adjustment pointer
- * Ring Static: Viton Pressure: 10 times of scale range
- * Mounting Scale Range: Directs Surface 250 rnm Wc to 6000rnmWc up to 10 Kg/cm²
- * Window Sealing: Toughened / Safety glass
